

## Enhance Safety and Hygiene

We understand the many challenges facing the education sector. You want to maintain a clean and safe environment, improve facility hygiene and promote cost-in-use savings. We can help you meet those goals.

Solaris Paper® provides products that are acknowledged by third party experts to be environmentally responsible and sustainable. The *Healthy Schools Campaign* is the leading national organization advising schools on best practices for operating a healthy school. One of their most successful and long-standing programs is Green Clean Schools, utilized to assess a school's current cleaning program and implementing best practices for safely and effectively cleaning and maintaining schools.

## Promote Healthy Schools and LEED®

Solaris Paper® is firmly committed to environmental responsibility and supporting green cleaning.

As a leader in the sustainability and Zero Deforestation movement, our innovative Rapidly Renewable Fiber (RRF) based product systems, including our LoCor®, Livi® VPG and Livi® VPG Select brands, promote that commitment and support healthy school environments.

RRF is a viable alternative to recycled content paper products, and complies with the U.S. Green Building Council's (USGBC) LEED® standards.\* The USGBC's recommendation for rapidly renewable paper products is a green third party certification approved by the Green Clean Schools program.

## Improve Productivity and Attendance

Our LoCor® bath tissue has 100% more tissue on a roll as compared to standard tissue rolls. And LoCor jumbo bath tissue offers an additional 20% more tissue in comparison to standard rolls. For you, that means fewer run-outs, lower labor costs and increased savings. Our high-capacity LoCor touchless towel and tissue dispensing systems improve hygiene, minimize the spread of germs, and meet ADA requirements\*\*. Studies link healthy school facilities to reduced turnover, teacher sick days and student absenteeism. That means higher productivity from staff and increased engagement from students.

Solaris Paper® Towel and Tissue Products and Advanced Dispensing Systems

Which Product Is The Best Value For Your Facility?	Solaris Paper LoCor Roll	Standard Roll
High Capacity	●	
Virgin Fiber	●	
Uses 100% of the Roll	●	●
Polywrap Packaging	●	
Helps Meet LEED® Requirements	●	●
Zero Deforestation	●	

\*Solaris Paper® towel and tissue products contribute to an environmentally friendly building operation, and meet the requirements of the U.S. Green Building Council (USGBC) LEED standards. Our products are derived from rapidly renewable resources, a compliance pathway defined in EQc7 (Environmental Quality credit 7) of LEED EBOM (v4) and IEQc3.3 (Indoor Environmental Quality credit 3.3) of LEED EBOM 2009 (v3).

\*\*LoCor® dispensing systems meet ADA requirements when installed according to ADA guidelines.
