

A More Hygienic Facility

At Solaris Paper®, we understand what professionals in the healthcare industry care about most. Whether a large hospital complex or long-term care facility, you want premium products that help you improve hygiene, keep patients and visitors safe, and decrease overall costs. Creating a more efficient and more hygienic facility has never been easier. See for yourself how LoCor® towel and tissue products from Solaris Paper help reduce cross-contamination and the spread of germs while promoting cost savings.

High Quality, Cost-Effective and Sustainable

Solaris Paper® towel and tissue products are made with Rapidly Renewable Fiber (RRF), which makes our products whiter, brighter and softer. Our high capacity towel and tissue products use an actual core, which reduces waste and increases cost savings. LoCor® towel and tissue products meet the requirements of the USGBC's LEED® Standards.*

Increase Productivity and Safety

Our LoCor® bathroom tissue products offer the same pleasing look of a standard roll, but with twice the sheets. For you, that means fewer run-outs, lower labor costs and increased cost savings. Our touchless towel and tissue dispensing systems minimize the spread of germs and meet ADA requirements**. And our Livi® VPG Select facial tissue provides at-home softness combined with tissue strength to meet the needs of staff and guests alike. Studies now link healthy medical facilities to reduced staff turnover, sick days and absenteeism. In turn, that means higher productivity from staff and a healthier and safer environment for patients and visitors.

Solaris Paper® Towel and Tissue Products and Advanced Dispensing Systems

Which Product Is The Best Value For Your Facility?	Solaris Paper LoCor Roll	Standard Roll
High Capacity	●	
Virgin Fiber	●	
Uses 100% of the Roll	●	●
Polywrap Packaging	●	
Helps Meet LEED® Requirements	●	●
Zero Deforestation	●	

*Solaris Paper® towel and tissue products contribute to an environmentally friendly building operation, and meet the requirements of the U.S. Green Building Council (USGBC) LEED standards. Our products are derived from rapidly renewable resources, a compliance pathway defined in EQc7 (Environmental Quality credit 7) of LEED EBOM (v4) and IEQc3.3 (Indoor Environmental Quality credit 3.3) of LEED EBOM 2009 (v3).

**LoCor® dispensing systems meet ADA requirements when installed according to ADA guidelines.
