

Enhance Your Image

We understand that image is everything for hospitality and lodging facilities. You strive to operate a high-class, environmentally friendly building, while containing costs and maintaining a clean, safe atmosphere that reduces cross-contamination.

Solaris Paper® towel and tissue products are made with Rapidly Renewable Fiber (RRF), which makes our products whiter, brighter and softer – and helps your facility meet the requirements of the USGBC’s LEED Standards.*

Better Performing Products

Our LoCor® jumbo bath tissue offers the same pleasing look of a standard roll, but with four times the sheets. For you, that means fewer run-outs, lower labor costs and increased cost savings. Our high-capacity touchless towel and tissue dispensing systems feature innovative designs to enhance cleanliness, improve hygiene and minimize the spread of germs. And our Livi® VPG Select facial tissue provides at-home softness combined with tissue strength to meet the needs of staff and guest alike. These high quality products provide a more sanitary environment for your staff and guests, and meet ADA requirements.**

Promote A Greener Facility

Solaris Paper® is firmly committed to sustainability and environmental responsibility. As a leader in the Zero Deforestation movement, our innovative RRF based product options support and promote that commitment to purchasing and procurement professionals as well. Creating a more efficient, hygienic and greener facility for staff and visitors has never been easier. Studies now link a healthy workplace with reduced turnover, sick days and absenteeism for workers and staff. In turn, that means higher productivity and more engagement from employees.

Solaris Paper® Towel and Tissue Products and Advanced Dispensing Systems

Which Product Is The Best Value For Your Facility?	Solaris Paper LoCor Roll	Standard Roll
High Capacity	●	
Virgin Fiber	●	
Uses 100% of the Roll	●	●
Polywrap Packaging	●	
Helps Meet LEED Requirements	●	●
Zero Deforestation	●	

*Solaris Paper® towel and tissue products contribute to an environmentally friendly building operation, and meet the requirements of the U.S. Green Building Council (USGBC) LEED standards. Our products are derived from rapidly renewable resources, a compliance pathway defined in EQc7 (Environmental Quality credit 7) of LEED EBOM (v4) and IEQc3.3 (Indoor Environmental Quality credit 3.3) of LEED EBOM 2009 (v3).

**LoCor® dispensing systems meet ADA requirements when installed according to ADA guidelines.
