

Enhance Your LEED® Status

We understand the unique challenges facing the manufacturing industry. You work to gain labor efficiencies and provide a safe and clean environment for workers – all while maintaining cost savings. Solaris Paper® towel and tissue products are made with Rapidly Renewable Fiber (RRF), which makes our products whiter, brighter and softer – and helps your facility meet the requirements of USGBC's LEED® Standards.*

Better Performing Products

Our LoCor® jumbo bath tissue offers the same pleasing look of a standard roll, but with four times the sheets. For you, that means fewer run-outs, lower labor costs and increased cost savings. Our touchless towel and tissue dispensing systems feature innovative designs to enhance cleanliness, improve hygiene and minimize the spread of germs. These high-capacity dispensing systems provide a more sanitary environment for employees and visitors, and meet ADA requirements.**

Increase Productivity and Promote a Greener Facility

Solaris Paper® is firmly committed to sustainability and environmental responsibility. As a leader in the Zero Deforestation movement, our innovative RRF based product options support and promote that commitment to purchasing and procurement professionals as well. Creating a more efficient, hygienic and greener manufacturing facility has never been easier. Studies now link healthy workplace facilities to reduced staff turnover, sick days and absenteeism. In turn, that means higher productivity from staff, and a healthier and safer environment for customers and visitors.

Solaris Paper® Towel and Tissue Products and Advanced Dispensing Systems

Which Product Is The Best Value For Your Facility?	Solaris Paper LoCor Roll	Standard Roll
High Capacity	●	
Virgin Fiber	●	
Uses 100% of the Roll	●	●
Polywrap Packaging	●	
Helps Meet LEED® Requirements	●	●
Zero Deforestation	●	

*Solaris Paper® towel and tissue products contribute to an environmentally friendly building operation, and meet the requirements of the U.S. Green Building Council (USGBC) LEED standards. Our products are derived from rapidly renewable resources, a compliance pathway defined in EQc7 (Environmental Quality credit 7) of LEED EBOM (v4) and IEQc3.3 (Indoor Environmental Quality credit 3.3) of LEED EBOM 2009 (v3).

**LoCor® dispensing systems meet ADA requirements when installed according to ADA guidelines.
