Ensuring High Quality Standards

Solaris Paper® is so confident that our LoCor dispensing systems will meet your high quality standards that we guarantee their performance. These advanced dispensing systems have been designed and engineered to function consistently and reliably. We put our dispensers through a battery of tests to ensure quality and performance.

LoCor high capacity dispensing systems will be free from significant defects in material and/or workmanship, and will materially conform to Solaris Paper's published specifications in effect as of the date of manufacture.

Program Registration Requirement

Online Dispenser Registration

All qualifying end-user accounts are required to register their dispensers at SolarisPaper.com to activate the dispenser warranty and qualify for the dispenser performance guarantee. This registration process is critical to ensure that all of our dispensers are warranty protected and provide security to our distributors and end-user customers. Through our system performance guarantee, we give our customers confidence that implementing the dispensing system was a smart and safe decision. See the reverse or visit SolarisPaper.com for official guarantee rules, conditions, and further details.

If your LoCor dispensing system fails to provide reliable dispensing when operated within normal use conditions, installed properly and used with our LoCor towel and tissue products, we'll repair or replace the dispenser (at our sole option) free of charge.
